Technical Skills

- React
- Node.js
- MongoDB

- Java
- JavaScript/HTML/CSS
- Firebase

- Github
- Heroku
- Unity

Projects

Game of the Night
August 2021

- Developed a MERN webapp as a solo project; deployed using Heroku.
- Allows users to rate recent NBA basketball games, allowing others to find the best games without spoilers.
- Incorporated a package to pull updated data from an API and save it to the database periodically.
- *Technologies: React, Express.js, Node.js, MongoDB, MaterialUI, Heroku.*

SkillMeet
May 2021

- Collaborated in a team of 4 to create a webapp using agile development method where you can create a profile and match with people based on skills to make new connections.
- Created the search feature, and profile picture functionality using React.
- *Technologies: React, Firebase, MaterialUI.*

Bestride
April 2021

- Worked in a team of 2 to develop a webapp that compares driver services
- Connected to Google Maps API to utilize directions and distance to calculate estimated prices.
- Worked with Firebase both as a database and to deploy.
- *Technologies: HTML, CSS, Javascript, Bootstrap.*

Daile
July 2021

- Solo project; Top-down 2D shooter created using Unity.
- Used asset packages from multiple sources to create a unique environment.
- *Technologies: C#, Unity.*
